

The Benefits of Conducting Psychological Tests Digitally

We know your time is valuable. That's why the MHS Online Assessment Center+ lets you administer, score, and generate reports with just a click of a button. The MHS Online Assessment Center+ is a user-friendly, intuitive platform, that will help simplify all the tasks in your assessment workflow, from adding a client to generating a report. Performing these tasks has never been easier, or more efficient. But saving you time is just the tip of the iceberg.

Cost effective

- If you currently purchase paper forms, you pay for the paper form regardless of whether it's used. By testing digitally through the **MHS Online Assessment Center+**, you're able to print or send out as many forms as required and you won't be charged for the use until it is entered, scored online, and a report is generated.
- Purchasing one use includes administration, scoring, and unlimited report generation. You don't incur a separate fee to generate a report.
- There is no fee to add admin users or set up an account and you can add unlimited sub users. Plus, you can monitor usage by account.

Easier access

- Administer, score, and generate a report from anywhere with an internet connection.
- You no longer have to physically carry heavy caseloads from place to place, worry about keeping customers data safe, or travelling to access district shared USBs.

Better report options

Digital assessment gives you access to a range of report options, which vary depending on the assessment but can include:

- A report that looks at the results from one administration.
- A report that compares results of different raters for one individual.
- A report that looks at an individual's progress for different administrations.
- Downloadable PDFs which allows for copying text direct from reports (cut and paste tables, graphs, etc.)
- Helpful report summaries which can assist with interpretation and providing feedback to teachers or parents/guardians of the student.

Improve your work efficiency

Save time

Hand scoring can be tedious and time consuming. Generate scores and multiple reports at the click of a button.

Don't waste valuable time chasing students, parents/guardians, or teachers, by mailing out reminder letters, and replacing lost forms. Simply track usage and send out reminders within **MHS Online Assessment Center+**.

Improve accuracy

- Scoring online through MHS Online Assessment Center+ helps to prevent human errors that can occur with hand-scoring. With automatic scoring, you save time and increase accuracy.
- Turn on the "double data entry" feature to help ensure accuracy when entering scores into the MHS Online Assessment Center+ from paper forms. This feature helps to identify any data entry mistakes.

Flexible Administration

- Email a link to a student, parent, or teacher. This link brings them directly to the assessment form.
- Manage and send reminders to your raters when they have incomplete assessments.
- Eliminate pending forms. Uses are deducted when results are scored and a report is generated, not when you send the invite.
- Gain quick access to your account balance and usage history. Monitor the available uses for your assessments and form use over time.

Paper administration is still available

- Print the assessment form for the student, parents, and teachers to bring home, to school, or the office. The form can then be returned to the practitioner to enter the information into MHS Online Assessment Center+.
- Printing a form does not impact your inventory. If a student loses the form, you can simply re-print without incurring any additional cost.

Onboarding Support

MHS has created a dedicated support page to help make the transition to assessing online as smooth as possible. You can access in-depth training videos, on demand webinars and short step-by-step video guides to walk you through each stage of the process. We believe you should have the flexibility to learn and onboard at your own pace.

New for Conners 4™ | CONNERS 4™ 4th EDITION

In addition to the exciting new features and updates within Conners 4, here's some of the benefits of the digital components of Conners 4:

- ★ Take the guess work out of your inventory management by purchasing general Conners 4 uses. You can apply the uses across any Conners 4 form (e.g., Full Length, Short, Parent or Teacher) and decide while generating the report rather than calculating inventory allocation in advance.
- ★ Unlike Conners 3, there is no minimum order of 25 for QuikScore forms, reports, translated forms, etc. You can purchase individual uses as needed on a use-by-use case to help reduce waste and save money.
- ★ Customizable reports provide more flexibility. Reports are available in both a Word document and PDF format.
- ★ Online reporting enables better data visualisation.
- ★ Gain instant access to important research-based and other product updates, at no additional cost.
- ★ The digital manual is easy to access within MHS Online Assessment Center+ for all users, including sub-users.
- ★ You no longer have to share a physical copy of the manual. There is no cost for the digital manual. Although, a printed version of the manual is available for purchase.
- ★ Instant reports flag items for immediate intervention which helps to support standard of care best practices.
