

Streamlined and Automated Accuracy

Integrating multiple test components of the WJ IV into a digital WJ V platform improves not only portability, but also the engagement, accessibility, accuracy, and efficiency of testing. The digital WJ V allows you to have an average of a **20% reduction in administration time!**

WJ IV and WJ V Median Administration Times by Test*

*Please Note

- 1 Times included in this chart only reflect the time it takes to administer the tests. It does not include the time needed to score the tests
- 2 These times are medians across all ages; time savings may be more or less for some tests, at some ages
- 3 This chart only includes those tests that are consistent across the WJ IV and WJ V

Four changes made to lower your administration time by over 20%

1 Starting points are automatically determined by selecting grade placement. No need to consult a separate table.

Consult the SSP table in the Test Book and turn to the correct page

Suggested Starting Points				
Subject's Estimated Ability	Kindergarten to Grade 2	Grade 3 to 5	Grade 6 to 8	Grade 9 to Adult
Begin Wds	Story 1 Page 159	Story 3 Page 161	Story 5 Page 163	Story 7 Page 165
Audio	Track 39	Track 40	Track 41	Track 42

New

Confirm the examinee's grade placement

2 Test specific audio recordings are embedded in the administration platform. No need to download or utilize a separate device.

Consult the track number in the Test Book and queue up the correct track on your audio player or phone

Start audio recording and present Story 1.
Track: 39

New

Press **PLAY** on the integrated audio interface

3 The platform automatically calculates the number of points earned. No need to manually add points on test records.

Mark the examinee's responses on the Test Record and add up points

New

Click the elements on the scoring interface to track the examinee's responses. The platform calculates the number of points earned

4 The platform automatically navigates to the next appropriate item or ends the test if requirements aren't met. No need to make a continuation decision.

Consult the continuation requirements on the Test Record and navigate to the next item; stop testing if the examinee did not meet the continuation requirements

4 or fewer points: Discontinue testing
5 or more points: Administer Stories 3 and 4 unless already administered

New

The platform automatically navigates to the next appropriate item or ends the test if the examinee did not meet the continuation requirements
