

SPM-2 Buying Guide

Q: What kit should I buy? What is the best value for money?

A: Do not buy more than one kit as each kit contains a Manual. Buy the kit you will use the most and then buy the components you need for other ages separately. If you work mostly with one age group and sparingly with another, buy the kit you will use the most and only buy 5 of each form for the other age group (online option only), or 25 of each printed form (paper forms only come in pack of 25).
